

VELMURUGAN G

FRONT END DEVELOPER

OBJECTIVE

To build seamless, high-performing web applications with a focus on clean design and efficient code. Skilled in using modern frameworks like Next.js to create responsive, user-friendly interfaces. Committed to delivering end-to-end solutions that align with real-world needs and function smoothly from development to deployment.

EXPERIENCE

Software Engineer - Front End Developer
Astroved.com PVT LTD [Jun 2024 - Present]

- ✔ **Web Application Development :**
Developed web applications using Next.js App Router with dynamic routing, nested layouts, and server-side rendering for improved performance and maintainability.
- ✔ **Build & Deployment :**
Generated optimized build outputs and deployed live production pages with a focus on SEO, performance, and smooth user experience.
- ✔ **Next.js Proficiency :**
Gained solid practical experience using Next.js in production projects, with a deep understanding of App Router architecture, routing patterns, layout management, and rendering strategies.
