

VELMURUGAN

Frontend Software Developer | React.js, Next.js

• velmurugan01396@gmail.com • LinkedIn_ • Portfolio_ • GitHub_ • 9095405312

Summary

Frontend Developer with 3+ years of experience in React.js and Next.js, specializing in building modern, high-performance web applications. Strong expertise in responsive UI, component-based architecture, Next.js App Router, SSR, and dynamic routing. Passionate about creating seamless, scalable, and SEO-optimized solutions with clean design and efficient code. Committed to delivering production-ready applications that provide excellent user experience from development to deployment.

Experience

Astroved.com PVT LTD

Chennai, Ambattur

Software Developer

Jun 2024- Jan 2026

- Developed scalable, high-performance web applications using Next.js App Router with Server-Side Rendering (SSR) to enhance SEO, load time, and performance.
- Implemented server-side pagination and dynamic metadata generation to efficiently handle large datasets and improve search engine visibility.
- Built dynamic and reusable pages using route parameters, props, and modular components, ensuring flexible application architecture.
- Designed and implemented secure, validated forms with robust error handling and POST API integration for safe user data submission.
- Implemented authentication and login workflows, ensuring secure access control and session management.
- Developed timezone-based content rendering using JavaScript, enabling accurate display of time-sensitive data for global users.
- Integrated location-based features by consuming REST APIs with latitude and longitude data to deliver region-specific content.
- Executed API calls in SSR, passed data through props, and rendered content efficiently using ES6 destructuring and optimized loops.
- Contributed to the architecture and development of a scalable Content Management System (CMS) supporting dynamic content updates and future expansion.

RTH INFOTECH PRIVATE LIMITED

Chennai,Velachery

Frontend Developer

Nov 2022- Jun 2024

- Developed web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Managed application state using React Hooks and Context API for complex global state handling.
- Improved performance and user experience through efficient rendering and optimized data fetching.
- Implemented authentication, authorization, and CRUD operations using RESTful APIs.

Skills

- Next.js App Router • SSR, SSG, ISR • Dynamic Routing & Nested Layouts • API Routes
- Next.js Image Optimization • Data Fetching Strategies • Vercel Deployment
- Performance Optimization • JavaScript (ES6) • HTML • CSS • Tailwind CSS
- React.js • React Hooks • Context API • REST API • JSON • Postman • MongoDB
- Figma (Design & Prototyping)

Education

B-TECH : Mechanical Engineering

Avadi Chennai - 600062

Vel Tech University

June 2013 - May 2017

Activities

Performance Optimization

Enhanced codebase by optimizing web application performance and memory usage to ensure a smooth and efficient user experience

Bug Reduction

Achieved a 60% reduction in reported bugs by actively participating in code reviews, identifying issues early, and improving overall code quality across the team.

Code-Level Skill

Enhanced web app performance and memory usage for a seamless user experience.
